The Boundary Waters Canoe Area Wilderness (BWCAW or BWCA), is a 1,090,000-acre (4,400 km<sup>2</sup>) wilderness area within the Superior National Forest in northeastern part of the US state of Minnesota under the administration of the U.S. Forest Service. A mixture of forests, glacial lakes, and streams, the BWCAW's preservation as a primitive wilderness began in the 1900s and culminated in the Boundary ...

In topology and mathematics in general, the boundary of a subset  $S$  of a topological space  $X$  is the set of points which can be approached both from  $S$  and from the outside of  $S$ . More precisely, it is the set of points in the closure of  $S$  not belonging to the interior of  $S$ . An element of the boundary of  $S$  is called a boundary point of  $S$ . The term boundary operation refers to finding or taking the ...

INTRODUCTION TO PLATE BUCKLING Variation of  $k$ , the plate buckling coefficient, with aspect ratio (the

ratio of the length, a, to the width, b) is shown in Fig. 3 for  $m=1,2,3$ , etc. It can be seen that the lowest value of the buckling coefficient is obtained for integral values of the aspect ratio.
