The ANSI/ASSE A10 Construction Package is a comprehensive compilation of the ANSI/ASSE A10 series of safety construction standards. The standards provide the safety requirements for scaffolding, steel erection, safety nets and fall protection.

ANSI/ASSE A10 Construction Package

A10.48 standards are not intended to address every aspect and consideration required for all constructions activities that may be encountered on a given jobsite, but do provide a direct reference to some of the most common additional standards that may be needed such as ANSI/ASME B30 series, ANSI/ASSE A10 series, and ANSI/ASSE Z359 among others.

While ANSI/ASSE A10.11-2010 (R2016) mentions nets used for catching falling debris, the topic of debris nets is the focus of ANSI/ASSE A10.37-2016. ANSI/ASSE A10.37-2016 establishes minimum guidelines for the design, selection, installation, testing, and use of debris net systems for construction, demolition, and the temporary containment of debris from deteriorating structures.
