Collaboration Research For Crisis Management Teams

To aid research in crisis management, we reviewed the literature pertaining to synchronous, non-located, cross-organizational, time-sensitive collaboration.

Collaboration Research for Crisis Management Teams

Our research is aimed at understanding and improving cross-organizational collaboration in crisis management situations, with aviation security serving as an exemplar domain and case study. Aviation security has received much attention since 2001 and is in special need of collaboration research.

Identifying Collaboration Challenges in Crisis Management

challenges of collaboration in crisis situations, review current research methods and approaches to address them and address the lack of formal processes, structures, methodologies and tools. Author Keywords Emergency management; collaborative decision making; time constraints; improvisation.

Collaboration and Decision Making in Crisis Situations
