Desire is a sense of longing or hoping for a person, object, or outcome. The same sense is expressed by emotions such as "craving". When a person desires something or someone, their sense of longing is excited by the enjoyment or the thought of the item or person, and they want to take actions to obtain their goal. The motivational aspect of desire has long been noted by philosophers; Thomas ...

I know I know, you already know protein is important at every meal, but did you know that research actually shows that 30 grams of protein at a meal can stimulate muscle growth? We tend to get very little protein at breakfast, then slightly more at lunch, then too much at dinner (the excess just turns to fat or it turned to glucose unless you actually use it).

30 grams of protein for breakfast. Do it.
