The demographics of Asian Americans describe a heterogeneous group of people in the United States who can trace their ancestry to one or more countries in Asia. Because Asian Americans compose 6% of the entire U.S. population, the diversity of the group is often disregarded in media and news discussions of "Asians" or of "Asian Americans."

Food security is a measure of the availability of food and individuals' accessibility to it, where accessibility includes affordability. There is evidence of food security being a concern over 10,000 years ago, with central authorities in ancient China and ancient Egypt being known to release food from storage in times of famine. At the 1974 World Food Conference the term "food security" was ...
