4. Summary: Not only does design thinking foster innovation, but it also strengthens teams by creating common vocabulary and artifacts, and a trust-based team culture. No company can succeed on the brainpower of one person. Teams are the foundation of a successful workplace. But working in teams can have a fairly large cost: members must spend time building common ground â€” that is, a body of ...

Collaborative learning is a situation in which two or more people learn or attempt to learn something together. Unlike individual learning, people engaged in collaborative learning capitalize on one another's resources and skills (asking one another for information, evaluating one another's ideas, monitoring one another's work, etc.).

### **Collaborative learning - Wikipedia**

Generate consistent, high-quality deliverables such as paper plots, reports, 2D/3D PDFs, i-models, and 3D physical models. Create annotation, display styles, and reports directly from the embedded properties of objects to ensure that they will always remain in sync with the design model during work-in-progress.
