Oral history is the collection and study of historical information about individuals, families, important events, or everyday life using audiotapes, videotapes, or transcriptions of planned interviews. These interviews are conducted with people who participated in or observed past events and whose memories and perceptions of these are to be preserved as an aural record for future generations.

Highlights First study to explore the empirical relationship between Canada's Indian residential school and pathways of risk for suicide. Canada's residential school, experienced individually or multigenerationally, predicated a history of abuse. This exposure and having a history of abuse was associated with a history of suicide thoughts and attempts.
