The history of New Mexico is based on both archeological evidence, attesting to varying cultures of humans occupying the area of New Mexico since approximately 9200 BC, and written records. The earliest peoples had migrated from northern areas of North America after leaving Siberia via the Bering Land Bridge. Artifacts and architecture demonstrate ancient complex cultures in this region.

### **History of New Mexico - Wikipedia**

The earliest human artifacts in Mexico are chips of stone tools found near campfire remains in the Valley of Mexico and radiocarbon-dated to circa 10,000 years ago. Mexico is the site of the domestication of maize, tomato, and beans, which produced an agricultural surplus. This enabled the transition from paleo-Indian hunter-gatherers to sedentary agricultural villages beginning around 5000 BC.
