Intuitively, a function is a process that associates to each element of a set X a unique element of a set Y . Formally, a function f from a set X to a set Y is defined by a set G of ordered pairs (x, y) such that $x \in X$, $y \in Y$, and every element of X is the first component of exactly one ordered pair in G . In other words, for every x in X , there is exactly one element y such that the ...

This study was motivated by the premise that no nation grows further than the quality of its educational leaders. The purpose of this theoretical debate is to examine the wider context of leadership and its effectiveness towards improving school management. This academic evaluation examines recent theoretical developments in the study of educational leadership in school management.

The adaptive process requires that organizations move away from status quo. Most organizations, however, are designed as complex systems rather than complex adaptive systems (Stacey, 1995). Complex systems differ from complex adaptive systems in that they are structured for efficiency and control, rather than adaptability (Brown and Eisenhardt, 1997; Eisenhardt and Tabrizi, 1995).
